

CUBE LABS

The BIOHEALTH Gear Box Alliance (BIO-ALL) project

BIO-ALL, a project for students in Biohealth/Entrepreneurship

BIO-ALL is a project funded under the Erasmus+ Programme, which aims at developing innovative approaches, providing entrepreneurial skills to academics and business professionals, to stimulate entrepreneurship and facilitate the exchange and co-creation of educational tools and knowledge.

ADVANCED SKILLS FOR INNOVATION AND ENTREPRENEURSHIP IN THE BIOHEALTH SECTOR (INTERNATIONAL JOINT POST-GRADUATION)

A pioneering International Joint Post-Graduation composed by a modular programme, a project/business plan unit, visits to BIOHEALTH established business and project-based activities (such as Hackathons/Boot Camp/Pitching Day).

This innovative educative asset will foster student's knowledge in BIO-related subjects and will enhance their entrepreneurial mind-set and t-shaped skills, providing participants the opportunity to be not only in direct contact with entrepreneurial/innovation-driven processes and collaborative practices (built-on a solid University-Business Cooperation framework), but also to have access to a unique international adventure (through cross-learning mobilities).

The International Joint Post-Graduation will be integrated into the current catalogue of the Academia partners and jointly promoted by University of Beira Interior (Portugal), Universidad de Granada (Spain) and Università Politecnica delle Marche (Italy) during the academic year of 2020-2021.

Cube-Labs will participate in the development of two courses: module 5 Business Strategy and Module 10 Corporate Sustainability.
